

## *Turf-Scape LLC*

Turf Scape began operations in 1984 with a single Ford pick-up truck and equipment required to manicure a lawn. Clients consisted mainly of apartment complexes and a dream to expand into the commercial and industrial areas.

Today we are a locally owned Baton Rouge business specializing in industrial and commercial grounds maintenance. From Baton Rouge to New Orleans Turf-Scape, Inc. has specially designed lawn maintenance and landscaping units which sport the company's two main slogans "Turfs Up!" and "Who Cuts The Grass!".

Turf Scape, LLC has added an erosion control and revegetation division servicing a multi state area
