

Turf-Scape Inc.

Turf Scape began operations in 1984 with a single Ford pick-up truck and equipment required to manicure a lawn. Clients consisted mainly of apartment complexes and a dream to expand into the commercial and industrial areas.

Today we are a locally owned Baton Rouge business specializing in industrial and commercial grounds maintenance. From Baton Rouge to New Orleans Turf-Scape, Inc. has specially designed lawn maintenance and landscaping units which sport the company's two main slogans "Turfs Up!" and "Who Cuts The Grass!".
